

Dear Valued Internet Customer,

We have successfully migrated your account to our new Webmail platform. You can continue to access your Webmail services by browsing to <http://scatui.com/> and selecting the SCATUI email tab. You now have the ability to view your SPAM quarantine by logging in to the new [Greymail](#) service using your full email address and password.

- *You will now be receiving "Daily Digest" emails that show you what SPAM has been quarantined. These are safe emails and will contain only content related to your email. If you have questions, please see our [SPAM FAQ](#).*
- *As part of the transition, you need to be sure you are utilizing your full email address (i.e. [username@scatui.net](#)) and password on your mail client (like Outlook, Apple Mail, Thunderbird, etc).*
- *As a reminder, there are no changes to your mail clients.*

Please allow for a few hours to ensure all of your older mail has been delivered to the new webmail platform. The settings for your email clients (like Outlook, Apple Mail, Thunderbird, etc) and some smartphone clients should not require any changes. However, if you have trouble with any settings or new features, please call our new tech support number [855-560-5169](tel:855-560-5169) for assistance.

Thank you for being a loyal customer!

Sincerely,

San Carlos Apache Telecommunications Support Team
